

# Power Lube Nano-Tec (PLNT)

## Power Lube Nano-Tec

### Product properties

This multipurpose lubricant forms a highly efficient NANO anti-friction barrier between the moving parts. This barrier is created by the especially formulated NANO-clusters with their extreme wear and tear protection properties.

#### Benefits:

- forms an extremely resistant lubrication film
- ideal for use under high-pressure conditions
- water-repellent, displaces moisture, highly adhesive
- perfectly suitable for long-term application
- extended life-span of the treated parts
- highly effective protection against wear and tear
- excellent "run-dry" properties

### Area of application

Chains, ropes, rolls, bearings, chain inner bearings, gearwheels, worm gears, joints, clutches, wire ropes, hinges, o-rings, bowden cables, locks etc.

### Application

Shake well before use! Thoroughly clean the parts to be treated. Afterwards evenly spray the product onto the areas to be treated and let it take effect for a while.

### Consumption

Depending on the application

### Reaction time

Works permanently

### Technical data

Physical state: aerosol

Colour: brown

Odour: mild

Density at 68 °F: 0.97 g/cm<sup>3</sup>

Water resistant

Available sizes	Item no.	PU
500ml	P2971	12
